**Medical Simulation Corporation Releases Updated
SimSuite Sepsis Courseware**

New version of Sepsis Concise course features more interactivity and opportunities for self-assessment of learning progress

DENVER, January 14, 2011 - Medical Simulation Corporation (MSC) announces the release of an updated version of its popular SimSuite Sepsis Concise online course. Available now at www.medsimulation.com, the course includes the following new features:

- Audio and visual prompts throughout course
- Interactive anatomical graphics
- Practice questions help learners self-evaluate their progress as they move through the course
- Two interactive case studies with audio and visual components and practice questions
- Summary section provides key teaching points in concise format
- Authored by nationally-recognized Critical Care expert Barbara McLean, MN, RN, CCRN, CCNS, CRNP, FCCM

The SimSuite Sepsis Concise Course focuses on early identification of sepsis and the Sepsis Resuscitation Bundle according to guidelines set by the Surviving Sepsis Campaign and the Institute for Healthcare Improvement (IHI). The emphasis is on early identification and prevention of progression of sepsis to severe sepsis. The course includes 1.5 CE and is recommended for hospital based acute care nurses (all disciplines), new nurse graduates, new hires in the critical care units, and nursing students.

About Medical Simulation Corporation

Medical Simulation Corporation (MSC) is the recognized healthcare industry leader in providing full-service simulation training and education services to healthcare personnel, medical societies and medical product manufacturers. MSC's quality and patient safety solutions are designed to strengthen the competence and confidence of nurses, physicians and technologists. Through its network of training platforms, MSC can provide customized training services to any location worldwide. For more information, please visit www.medsimulation.com or call 888/889-5882.
